

Simpson's Creek, Brunswick Heads

MAP
of
Brunswick River
Marshalls Creek
Simpsons Creek

Next Autumn (1st March 2008) Upstreampaddle magazine hopes to bring you an article on the Brunswick River, which runs from Mullumbimby down to the ocean at Brunswick Heads. Right at the mouth two creeks join the river, Marshall Creek from the north, and Simpsons Creek from the south.

As a reader, Chris, has sent in some photos of exploring Simpsons Creek, I decided to run them with the locality map prepared for the Autumn article, so you can make the most of the coming Summer. The map is printer friendly black and white. The Terrace Caravan Park in the small coastal town of Brunswick Heads is right next to the water. The photo above is Chris's sit on top kayak moored at the caravan park steps.
